TEACHER FEEDBACK //

JAYNE CAMPBELL // Principal
Marian Catholic College

'This [mentoring] has provided our boys with a unique forum in which, for the first time, they have felt comfortable to explore their own perceptions of manhood as well as important, deeply personal issues such as mental health. We have seen real growth in the boys' capacity to make meaningful connections at school and they have experienced positive flow on effects in their family environments as well'

MICHAEL PAPADAKIS // Year 10 Advisor
Rose Bay Secondary College

'This forum was simply outstanding! The topics were significant. The speeches were passionate. The structure was excellent. The venue was excellent. The impression on the audience will be profound'

SCOTT LEBENS // Year 10 Assistant Advisor
Kingswood High School

'Brilliant forum, the boys were completely engaged and really connected to the messages and issues being addressed. This should be a compulsory event for all schools, like cross roads, as it is incredibly relevant and important that young men discuss mental health, healthy relationships, body image and other issues addressed'

CHELSEA VOTANO // Year Advisor
Glenwood High School

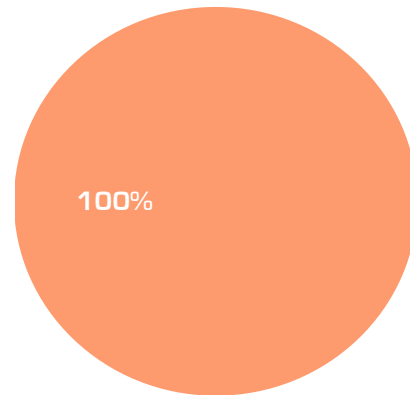

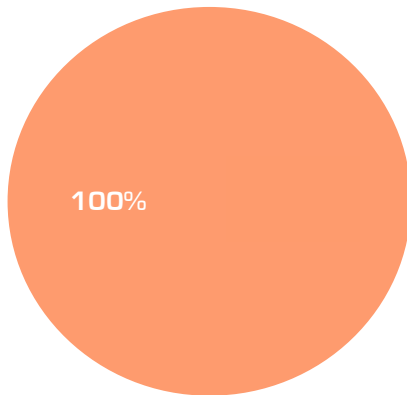

'I could not recommend this [mentoring] program any more than it would be a disservice to deny any one the opportunity to do so. It has been a mind-blowing and phenomenal course to witness in action. From the moment the program started, we witnessed the radical development of self-efficacy in each of our students'

We asked teachers in 2019 to respond 'yes' or 'no' to the following about the forum.

MESSAGE FROM THE CEO //

Our vision at Conviction Group is a generation of empowered young Australians capable of being responsible for their mental wellbeing and who are comfortable to seek help when experiencing personal challenges. We are a non-profit charity, who value social change through delivering educational programs to young people at high school. Our programs encourage students to re-evaluate their perspectives towards wellbeing related topics and help them develop tools to improve their decision making. Since Conviction Group's inception in 2015, we have delivered programs to 10,654 students from 100 schools. This report is a summary of student and teacher responses collected from post-program surveys from 2015 - 2019. Since our first program, we have been collecting feedback to help deepen our understanding of young people and the effectiveness of our programs. Our team strives for excellence and understands the importance of continuing to evaluate and advance our programs to better impact young people in our community.
